Each of the following questions below consists of a question and two statements numbered I and II given below it. You have to decide whether the data provided in the statements are sufficient to answer the question. Read both the statements and give answer.

(A) if the data in **statement I alone** are **sufficient** to answer the question, while the data in statement II alone are not

sufficient in answer the question.

(B) if the data in **statement II alone are sufficient** to answer the question, while the data in statement I alone are not sufficient to answer the question.

(C) if the data in **either in statement I alone or in statement II alone are sufficient** to answer the question.

(D) if the data in **both the statements I and II together are not sufficient** to answer the question.

(E) if the data in **both the statements I and II are together necessary** to answer the question.

Question 1: What is Bhana's rank in a class of 44 students?

Statement I: Kamal whose rank is 17th in the class, is ahead of Preti by 6 ranks, Preti being 7 ranks ahead of Bhana.

Statement II: Suman is 26 ranks ahead of Bhana and Priya is 6 ranks behind Bhana while Savita stands exactly in the middle of Suman and Priya in ranks, her rank being 17.

Question 2: Who is paternal uncle of P?

Statement I: P is brother of L, who is daughter of Q, who is sister of N, who is brother of S.

Statement II: M is brother of K, who is husband of L, who is mother of G, who is sister of P.

Question 3: Who amongst P, Q, R, S, T and U is the tallest?

Statement I: P is taller than R and T but not as tall as U, who is taller than Q and S.

Statement II: R is third in height in ascending order and not as tall as U, P and Q, Q being taller than P but not the tallest.

Question 4: Do X, Y, and Z stand in a straight line?

Statement I: F is 2 km towards the south of E. K is 5 km towards the west of F. X is 2 km towards the north of F. Y is 3 km towards the east of E and Z is 4 km towards the east of Y.

Statement II: X is 2 km towards the north of L. K is 4 km towards the west of L. S is 1 km towards the south of K. M is 2 km towards the west of S. Y is 3 km towards the north of M and Z is 2 km towards the north of W.

Question 5: Which direction is Preeti facing?

Statement I: If Gagan, who is currently facing east, turns 90 degree towards his right, he would face a direction exactly opposite to the direction Preeti is facing.

Statement II: If Priya, who is currently facing south, turns left, walks 1 km and then takes a left turn again, she would face the same direction as Preeti.

Question 6: There are 6 people P, Q, R, S, T and U each lives on a different floor of a 6 storey building having 6 floors numbered 1 to 6 (the ground floor is numbered 1, the floor above it, number 2 and so on and the topmost floor is numbered 6). Who among the person lives on the 4th floor?

I.T does not live on an even numbered floor. Q lives on an

even numbered floor. Q does not live on the topmost floor. S lives on an odd numbered floor. There are two floors between the floors on which S and P live.

II. R is live topmost floor. Q is odd number floor. There are two floors between R and Q.

III. T lives on a floor immediately above R's floor. There is only one floor between the floors on which R and Q live, P lives on an even numbered floor.

A) If the data in **Statement I and II** are sufficient to answer the question while the data in Statement III is not required to answer the question

B) If the data in **Statement I and III** are sufficient to answer the question, while the data in Statement II is not required to answer the question

C) If the data in **Statement II and III** are sufficient to answer the question, while the data in Statement I is not required to answer the question

D) If the data in **either Statement I alone or Statement II alone or Statement III alone** is sufficient to answer the question

E) If the data in all **the Statement I, II and III together** are necessary to answer the question

Question 7: There are 6 people A,B,C,D,E and F each lives

on a different floor of a 6 storey building having 6 floors numbered 1 to 6 (the ground floor is numbered 1, the floor above it, number 2 and so on and the topmost floor is numbered 6). All person like different colours .Who is the following lives on the 4th floor like which colour?

I.A stay on odd numbered floor but not stays on lowest floor. Two floor between A and F who like white colour.

II.E like red colour and stays on immediately above A. There are 2 persons between D and B who like green colour.

III.The person who like pink colour stay on immediately below A and D stays on above B.

A) If the data in Statement I and II are sufficient to answer the question while the data in Statement III is not required to answer the question

B) If the data in Statement I and III are sufficient to answer the question, while the data in Statement II is not required to answer the question

C) If the data in Statement II and III are sufficient to answer the question, while the data in Statement I is not required to answer the question

D) If the data in either Statement I alone or Statement II alone or Statement III alone is sufficient to answer the question

E) If the data in all the **Statement I, II and III together** are necessary to answer the question

Question 8: There are 7 people P,S,M,O,N,R and Q each lives on a different floor of a 8 storey building having 8 floors numbered 1 to 8 (the ground floor is numbered 1, the floor above it, number 2 and so on and the topmost floor is numbered 8) which of the following floor person does not stay?

I. There are two floor between N and M. N stays on odd numbered floor which multiple of 3. S stays on immediately above M. T stays on immediately above S.

II. There are three floor between S and R and N stays on immediately above R.

III. There are two floor between O and Q and R stays on immediately below N.

A) If the data in **Statement I and II are sufficient** to answer the question while the data in Statement III is not required to answer the question

B) If the data in **Statement I and III are sufficient** to answer the question, while the data in Statement II is not required to answer the question

C) If the data in **Statement II and III are sufficient** to answer the question, while the data in

Statement I is not required to answer the question

D) If the data in either **Statement I alone or Statement II alone** or Statement III alone is sufficient to answer the question

E) If the data in all the **Statement I, II and III together** are necessary to answer the question

Question 9: There are 8 people I,J,K,L,M,N,O and P each lives on a different floor of a 8 storey building having 8 floors numbered 1 to 8 (the ground floor is numbered 1, the floor above it, number 2 and so on and the topmost floor is numbered 8), 'J' stay on which floor?

I. There are two persons stay between I and L. I stays on odd numbered floor and more than four persons stay below I.

II. M stays on immediately below L and stays on immediately above N.

III. There are two persons stay between N and K. There is one person stays between N and P.

A) If the data in Statement I and II are sufficient to answer the question while the data in Statement III is not required to answer the question

B) If the data in Statement I and III are sufficient to answer the question, while the data in

Statement II is not required to answer the question

C) If the data in Statement II and III are sufficient to answer the question, while the data in

Statement I is not required to answer the question

D) Answer cannot be found even using all the three statements

E) If the data in all the Statement I, II and III together are necessary to answer the question

Question 10: There are 6 people P, Q, R, S, T and U each lives on a different floor of a 6 storey building having 6 floors numbered 1 to 6 (the ground floor is numbered 1, the floor above it, number 2 and so on and the topmost floor is numbered 6) and go to 6 different city. Who among the person goes to Kolkata?

I.G stays on even numbered floor but not stays on top most floor. There are two persons stay between G and E who goes to Bhopal.

II.F stays on immediately above E and goes to Jaipur. There are three persons stay between F and I who goes to Patna.

III.G goes to Mumbai and stays on immediately above K. The person who goes to Delhi stays on above the person who goes to Kolkata.

A) If the data in **Statement I and II** are sufficient to answer

the question while the data in

Statement III is not required to answer the question

B) If the data in **Statement I and III** are sufficient to answer the question, while the data in

Statement II is not required to answer the question

C) If the data in **Statement II and III** are sufficient to answer the question, while the data in

Statement I is not required to answer the question

D) If the data in **either Statement I alone or Statement II** alone or Statement III alone is sufficient to answer the question

E) If the data in all the **Statement I, II and III** together are necessary to answer the question

Each of the following questions below consists of a question and two statements numbered I and II given below it. You have to decide whether the data provided in the statements are sufficient to answer the question. Read both the statements and give answer.

(A) if the data in **statement I alone are sufficient** to answer the question, while the data in statement II alone are not sufficient in answer the question.

(B) if the data in **statement II alone are sufficient** to answer the question, while the data in statement I alone are not sufficient to answer the question.

(C) if the data in **either in statement I alone or in statement II alone are sufficient** to answer the question.

(D) if the data in **both the statements I and II together are not sufficient** to answer the question.

(E) if the data in **both the statements I and II are together necessary** to answer the question.

Question 11: What is the direction of point A with respect to point K?

Statement I: Point A is 6 m to the west of point B. Point C is 6 m to the south of point B. Point E is 4 m to the south of point D. Point C is 8 m to the west of point D. Point E is 10 m to the east of point F.

Statement II: Point I is 7 m to the north of point H. Point I is 3 m to the west of point J. Point H is 6 m to the west of point G. Point F is 4 m to the north of point G. Point K is 2 m to the south of point J.

Question 12: What is the distance between the final positions of ANIT and BUNIT?

Statement I: ANIT starts from a point in north direction. After walking for 6 m he turns to right and walks 8 m to reach point B. Next he takes a right turn again and walks 5 m before turning to left. Next he walks 7 m and turns right. Leaks for 5 m and stops finally.

Statement II: BUNIT starts walking in south direction from

point B. Walks for 8 m and takes a left turn. Next walks for 10 M and turns to right, walks for and finally stops.

Question 13: How is B related to A?

Statement I: K is brother of B. A is father of E. A is son of C. G is son of D. H is sister of G.

Statement II: F is niece of G and sister of A. B is sister in law of G. D has only 3 children one of them being girl

Question 14: How is 'may' written in code language?

Statement I: In that code language, 'she he we' is written as 'ip ap de' and 'they we may' is written as 'ip pu od'.

Statement II: 'she could we' is written as 'ap su ip' and 'we he should' is written as 'en de ip'.

Question 15: Who is tallest among - A, B, C, D, E and F?

Statement I: C is taller than B and shorter than D. D is not the tallest. B is taller than E. F is taller than C and also A.

Statement II: F is taller than C and B both. D is taller than B. E is shorter than B. A is shorter than D.

Question 16: How is A related to F?

Statement I: M is sister of F. B is mother of M. D is father of L. L is brother-in-law of A. C is married to D and has only 2 children one of them being B. Only one of the children of D is married.

Statement II: H is niece of G who is brother of A. K is father of A. B is only daughter-in-law of J. G is son of J. F is sister of H.

Question 17: How is C related to A?

Statement I: C is married to D. F is sister of A. H who is not married is son of D. F is sister-in-law of B. A is married to B.

Statement II: A is husband of B. G is daughter of B. F is sister of A. D is father of H. C is mother of F

Question 18: What is the direction of point A with respect to point G?

Statement I: Point A is 5 m north of point B. Point B is 7 m to west of point C. Point E is 4 m west of point D. Point G is somewhere south of point E. Point C is 2 m north of point D.

Statement II: Point A is 6 m west of point B. Point C is 3 m to south of point B. Point D is 2m north of point E. Point E 6 m west of point G. Point D is 8 m to west of point C.

Question 19: Who is sitting opposite E in a circle in which 6 people are sitting facing centre.

Statement I: E is sitting to immediate left of A. There are 2 people in between A and C. F is immediate neighbor of C. D is sitting opposite B.

Statement II: B and E are sitting together. A is sitting opposite A. F and D are sitting together. A and B are not sitting together.

Question 20: Who is sitting second to the left of B in a line in which all people are facing north? (B is not sitting at any extreme end)

Statement I: C is sitting to immediate left of E. There are 2

people between A and E. D and A are immediate neighbors. There are 2 people between B and F. B and E are not sitting together.

Statement II: D is sitting to immediate left of A. There are 2 people between A and E. C is sitting second to left of F

Question 21: On which date S leaves for JAIPUR in January month?

I. S takes leave for one week from his office in January month starting from 5th January.

II. S mother correctly remembers that S leaves for JAIPUR after 5th but before 7th January..

Question 22: Five persons A, B, C, D and E are sitting around a circular table with all of them facing towards the center. Who sits immediate left of B ?

I. A sits third to right of B. C sits third to right of A.

II. B sits immediate left of C who sits second to left of A. D does not sit adjacent to B.

Question 23: What is code of "called" ?

I. In certain language, " meeting had been called" is written as " sx vt bv mp" and " they called every time" is written as " bv ct fa jl " .

II. " you called every hour" is written as " ca bv jl ma".

Question 24: Point S is in which direction with respect to point Y?

I. Point S is in north of Point X. Point X is in east of Point T. Point T is in north of point V which is west of Point Y.

II. Point Y is west of Point X. Point X is in west of Point T which is north of V. Point V is east of Point S which is south of Point X.

Question 25: Five persons A, B, C, D and E are of different weight . Who is heaviest ?

I. B is heavier than C and D but lighter than E who is not the heaviest.

II. E is heavier than B and C but lighter than A.

Question 26: Who amongst A, B, C, D and E is the shortest?

I. A is taller than B. E is not the tallest.

II. C is taller than A. D is not the tallest.

Question 27: How is B related to E?

I.M and Z are brothers of B and E is son of Z .

II.D is mother of U who is son of B.

Question 28: In which month of the year did R go Patna for a vacation?

I. R correctly remembers that she went for a vacation in the first half of the year.

II. R's husband correctly remembers that they went for a vacation after 31st March but before 1st May.

Question 29: Is P is maternal aunt of M?

I. A is son of P. A is brother of B. B is daughter of C. F is sister of C. M is daughter of F.

II. D is father of M. F is mother of M. K is brother of F. K has two children J and R. P is married to K.

Question 30: Among V,W,X,Y and Z, seated in a straight line facing south, who sits at the middle?

I. W sits second to right of V. Z is not immediate neighbor of Y.

II. V sits third to left of Y. W sits on the immediate right of X.

Question 31: Point A is in which direction with respect to point B?

I. Point D is to the east of point A. Point A is to the south of point F. Point B is in southwest of point D.

II. Point F is to the north-west to point B. Point B is to the south of point D which is east of Point F. Point A is in north of point D.

Question 32: On which day of the same week is L's exam scheduled (Monday being the first day of the week)?

- I. L correctly remembers that his exam is scheduled on a day after Tuesday, but before Thursday of the same week.
- II. L's father correctly remembers that L's exam is scheduled on the third day of the week.

Question 33: How many marks has J scored in the test? (Maximum marks 20)

- I. J scored two-digit marks. Her marks were not in decimals.
- II. J scored more than 9 marks in the test. Her marks is perfect square.

Question 34: P, Q, R, S and T are sitting in a row with all of them facing towards north direction. Who is second to the left of P?

- I. R is to the immediate left of T and second to the right of S.
- II. Q is to the immediate right of S and third to the left of P.

Question 35: Who is sitting to the immediate right to Manisha among five friends sitting around a circle facing the centre?

- I. Sherya is sitting exactly between Kajal and Sneha and Raj is sitting to the immediate right of Sneha.
- II. Manisha is sitting exactly between Kajal and Raj and

Sherya is sitting to the immediate right of Kajal.

Question 36: What does 'ra' mean in the code language?

I. 'st qm ra' means 'Look at me' and 'qm ms st rt' means 'don't look at him' in that code language.

II. 'ka tv ne ra' means 'take me and go' and 'vw wx si ra' means 'either me or you' in that code language.

Question 37: How is Sarita related to Rajesh?

I. Soni, the cousin of Rajesh, is the niece of Sarita.

II. Swarna is sister of Sarita who is the wife of Om. Om is the father of Rajesh.

Question 38: What is M's rank in the class of 40?

I. S, who is 9th from the top in the class is above R by 12 ranks who is below M by 5 ranks.

II. N, who is between M and Q, is 15th from the bottom.

Question 39: Point Y is in which direction with respect to point X?

I. Point A is east of point B and north of point X. Point Y is north-west of point A.

II. Point X is east of point B and north of point A. Point Y is north of point A.

Question 40: Who among A, B, C, D and E types fastest?

I. B types faster than E but he is not the fastest among them.

II. C types faster than D and E. C does not type as fast as A and B.

Each of the questions below consists of a question and three statements numbered I, II and III given below it. You have to decide whether the data provided in the statements are sufficient to answer the question. Read both the statements and given answer.

- (A) If the data in **statement I and II** are sufficient to answer the question.
- (B) If the data in **statement II and III** are sufficient to answer the question.
- (C) If the data in **statement I and III** are sufficient to answer the question.
- (D) If the data in **all the statement I, II and III together** are **not sufficient** to answer the question.
- (E) If all the **statements I, II and III** are necessary to answer the question.

Question 41: Six kids viz. U, V, W, X, Y and Z were born in the same week starting from Monday to Saturday, one on each day. How many of them are older than W?

- I.** X is older than at least three kids. U was born on Tuesday.
- II.** Y is older than at least one of them. W was born immediately after X.
- III.** At least four persons were born after V.

Question 42: In a certain code language 'fa ka la ju' means 'will black high fly'. Then what is the code of 'feed black'? If,

- I. 'lu ja ka hu' means 'will crow feed us',**
- II. 'ju lu na fu' means 'fly of the us'**
- III. la fu ja ju' means 'feed black the fly'**

Question 43: There are 5 boxes V, W, X, Y, and Z of chocolate stored in 5 floor shelves one above the others. In which floor does box X store?

- (I) Box Y is at topmost floor. Box W is just below V but store in even numbered floor.**
- (II) Box Y does not store in an even number floor.**
- (III) Box Z does not store in even number floor and Y is above Z.**

(A) If the data in statement I alone or in the statement II alone or in the statement III alone is sufficient to answer the question.

(B) If the data in statement I and II together are sufficient to answer the question, while the data in statement III are not sufficient to answer the question.

(C) If the data in statement I and III together are sufficient to answer the question, while the data in statement II is not sufficient to answer the question.

(D) If the data in **statement II and III together are sufficient** to answer the question, while the **data in statement I is not sufficient** to answer the question.

(E) If the **data in all the statement I, II and III together are necessary** to answer the question.

Question 44: How is 'world' written in a code language?

(I) 'after become world for 'is written as 'mn, lk, st, uv' in that code language.

(II) 'become digital year one' is written as 'pq, cd, st, lm' in that code language.

(III) 'fight news world center' is written as 'ad, op, mn, ma 'in that code language.

Question 45: 'S' is in which direction with respect to 'Q'?

(I) P is north of Q and west of T who is south of N.

(II) T is west of J who is north east of S who is south east of P.

(III) S is north of K and south west of P.

(A) if the data in **statement I alone are sufficient** to answer the question, while the data in statement II alone are not sufficient in answer the question.

(B) if the data in **statement II alone are sufficient** to answer the question, while the data in statement I alone are

not sufficient to answer the question.

(C) if the data in **either in statement I alone or in statement II alone are sufficient** to answer the question.

(D) if the data in **both the statements I and II together are not sufficient** to answer the question.

(E) if the data in **both the statements I and II are together necessary** to answer the question.

Question 46: In which year was Rahul born ?

Statements:

- I. Rahul at present is 25 years younger to his mother.
- II. Rahul's brother, who was born in 1964, is 35 years younger to his mother.

Question 47: What will be the total weight of 10 poles, each of the same weight ?

Statements:

- I. One-fourth of the weight of each pole is 5 kg.
- II. The total weight of three poles is 20 kilograms more than the total weight of two poles.

Question 48: How many children does M have ?

Statements:

- I. H is the only daughter of X who is wife of M.
- II. K and J are brothers of M.

Question 49: How much was the total sale of the company ?

Statements:

- I. The company sold 8000 units of product A each costing Rs. 25.
- II. This company has no other product line.

Question 50: The last Sunday of March, 2006 fell on which date ?

Statements:

- I. The first Sunday of that month fell on 5th.
- II. The last day of that month was Friday.

Question 51: Who is to the immediate right of P among five persons P, Q, R, S and T facing North ?

Statements:

- I. R is third to the left of Q and P is second to the right of R.
- II. Q is to the immediate left of T who is second to the right of P.

Question 52: On which date of the month was Anjali born in February 2004 ?

Statements:

- I. Anjali was born on an even date of the month.
- II. Anjali's birth date was a prime number.

Question 53: How is X related to Y?

Statements:

- I. Y says, "I have only one brother".
- II. X says, "I have only one sister".

Question 54: How is F related to P?

Statements:

- I. P has two sisters M and N.
- II. F's mother is sister of M's father.

Question 55: B is the brother of A. How is A related to B ?

Statements:

- I. A is the sister of C.
- II. E is the husband of A.

Question 56: Among T, V, B, E and C, who is the third from the top when arranged in the descending order of their weights ?

Statements:

- I. B is heavier than T and C and is less heavier than V who is not the heaviest.
- II. C is heavier than only T.

Question 57: Which word in the code language means 'flower' ?

Statements:

'de fu la pane' means 'rose flower is beautiful' and 'la quiz' means 'beautiful tree'.

'de la chin' means 'red rose flower' and 'pa chin' means 'red tea'.

Question 58: How many students in a class play football ?

Statements:

- I. Only boys play football.
- II. There are forty boys and thirty girls in the class.

Question 59: Who is C's partner in a game of cards involving four players A, B, C and D ?

Statements:

- I. D is sitting opposite to A.
- II. B is sitting right of A and left of D.

Question 60: On a T.V. channel, four serials A, B, C and D were screened, one on each day, on four consecutive days but not necessarily in that order. On which day was the serial C screened ?

Statements:

- I. The first serial was screened on 23rd, Tuesday and was followed by serial D.
- II. Serial A was not screened on 25th and one serial was

screened between serials A and B.

Question 61: How is Sulekha related to Nandini ?

Statements:

- I. Sulekha's husband is the only son of Nandini's mother.
- II. Sulekha's brother and Nandini's husband are cousins.

Question 62: Can Ritesh retire from office X in January 2006, with full pension benefits ?

Statements:

- I. Ritesh will complete 30 years of service in office X in April 2000 and desires to retire.
- II. As per office X rules, an employee has to complete minimum 30 years of service and attain age of 60. Ritesh has 3 years to complete age of 60.

Question 63: What is the code for 'or' in the code language?

Statements:

- I. 'nik sa te' means 'right or wrong', 'ro da nik' means 'he is right' and 'fe te ro' means 'that is wrong'.
- II. 'pa nik la' means 'that right man', 'sa ne pa' means 'this or that' and 'ne ka re' means 'tell this there'.

Question 64: Madan is elder than Kamal and Sharad is

younger than Arvind. Who among them is the youngest ?

Statements:

- I. Sharad is younger than Madan.
- II. Arvind is younger than Kamal.

Question 65: On which date in August was Kapil born ?

Statements:

- I. Kapil's mother remembers that Kapil was born before nineteenth but after fifteenth.
- II. Kapil's brother remembers that Kapil was born before seventeenth but after twelfth.

Question 66: What is Nitin's rank from the top in a class of forty students ?

Statements:

- I. There are ten students between Nitin and Deepak.
- II. Deepak is twentieth from the top.

Question 67: Which direction is Sunny facing now ?

Statements:

- I. If Sunny turns to his right and again turns to his right, he will be facing North.
- II. If Sunny walks some distance and turns left and again walks some distance, then his face will be towards left of Dinesh who is facing South.

Question 68: T studies in which of the schools B, C, D, E and F ?

Statements:

- I. T does not study in the same school as either R or J.
- II. R and J study in schools D and F respectively.

Question 69: How is Divya related to Shaloo ?

Statements:

- I. Divya's mother is sister of Shaloo's father.
- II. Shaloo is the daughter of Divya's grandfather's only child.

Question 70: How many New Year's greeting cards were sold this year in your shop ?

Statements:

- I. Last year 2935 cards were sold.
- II. The number of cards sold this year was 1.2 times that of last year.

Question 71: Which bag amongst P,Q,R,S & T is the heaviest ?

I) Bag Q is heavier than R & S .Bag T is heavier only than bag P .

II) Only three bags are lighter than R. The weight of bag Q is

50 kg which is 2 kg more than bag R

Question 72: Among people A,B,C,D,E & F , each having a different weight .Who is the second highest ?

I)C is heavier than only two people. A is heavier than F but lighter than B . D is not the highest .

II)F is lighter than only two people. C is lighter than F but heavier than D . A is lighter only B.

Question 73: Who is the youngest among A,B,C,D & E

I)B is younger than C & D

II)A is younger than C but older than E

Question 74: Who among D,E,F,G,H & J got the highest marks in an exam ?

I)D's marks was more than G & J and E's marks was less than that of F

II)E scored less than G .J scored more than G & H . No one scored marks between F & G or F & H .

Question 75: Among five friends P,Q,R,S & T having different heights, who is the tallest ?

I)R is taller than only one friend. Only one friend is taller than T . P is not the shortest .
